## DETAILED ACTION

### ***Response to Remarks***

1. Applicants' arguments and amendments, filed on 10/05/01, have been fully considered but they are not deemed to be persuasive. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either newly applied or reiterated. They constitute the complete set presently being applied to the instant application.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

3. Claim 1 is rejected under 35 U.S.C. 102(a) as being anticipated by Clark et al. (5,837,256).

Clark et al. discloses a method of treatment of lupus nephritis which comprises administering to a patient an effective amount of secoisolariciresinol or secoisolariciresinol diglucoside (SDG) in substantially pure form.

Applicants have the arguments that Clark et al. show only the administration of SDG and not the administration of SECO. This is not convincing as it stated in the abstract and the claims of Clark et al. reference that it has been found that by administering secoisolariciresinol (SECO) in substantially pure form to a human or non-human animal, lupus nephritis can be controlled.

Art Unit: 1656

4. Claims 2-13 and 15-16 are allowed.

5. **THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

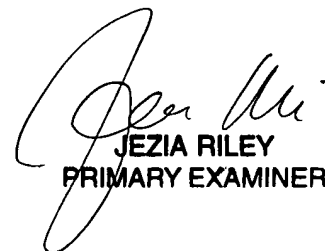

A shortened statutory period for response to this final action is set to expire THREE MONTHS from the date of this action. In the event a first response is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event will the statutory period for response expire later than SIX MONTHS from the date of this final action.
